 ) JUDGMENT ENTRY

Appellant has filed a motion for stay of execution of the trial court's judgment. The trial court denied a similar motion for stay on April 11, 2016. Seeing that this is an expedited appeal by agreement of the parties, and in order to preserve the status quo during the attenuated appeal period, we conclude that a stay of execution is appropriate in this case and that no supersedeas bond will be needed. Motion granted.
